ST 01-0264-GIL 12/26/2001 FOOD, DRUGS & MEDICAL APPLIANCES

> A medicine or drug is "any pill, powder, potion, salve, or other preparation intended by the manufacturer for human use and which purports on the label to have medicinal qualities." See 86 Ill. Adm. Code 130.310. (This is a GIL).

December 26, 2001

Dear Xxxxx:

This letter is in response to your letter dated October 30, 2001. The nature of your letter and the information you have provided require that we respond with a General Information Letter, which is designed to provide general information, is not a statement of Department policy and is not binding on the Department. See 2 Ill. Adm. Code 1200.120(b) and (c), which can be found on the Department's website at http://www.revenue.state.il.us/legalinformation/regs/part1200.

In your letter, you have stated and made inquiry as follows:

> Please find enclosed the ingredients for our product. We would appreciate you reviewing the enclosed information and providing us with a ruling regarding the taxability of this product.
>
> I appreciate your time and advice. If you require further information, please call me.
>
> Thanking you in advance.

In the context of a General Information Letter, we are unable to rule on the taxability of the product you described in your letter. More information is needed to determine the exact nature of the product. For your information, we have enclosed a copy of 86 Ill. Adm. Code 130.310, which is the Department's regulation for "Food, Drugs, Medicines and Medical Appliances." This regulation describes how sale of food and drugs can be subject to either low (1%) or high (6.25%) State tax rates under the Retailers' Occupation Tax Act. Local sales taxes may also apply, depending upon where retail sales are made.

As you can see, the regulation provides that food which is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks, and food which has been prepared for immediate consumption), and prescription and non-prescription medicines, drugs, and various medical appliances are taxed at the State rate of 1% plus applicable local taxes. Food is defined as any solid, liquid, powder or item intended by the seller primarily for human internal consumption, whether simple, compound or mixed, including foods such as condiments, spices, seasonings, vitamins, bottled water and ice. See Section 130.310(b)(1).

A medicine or drug is "any pill, powder, potion, salve, or other preparation intended by the manufacturer for human use and which purports on the label to have medicinal qualities." See Section 130.310(c)(1).

Products that do not meet the appropriate definitions of food, drugs, medicines or medical appliances, or are food prepared by the vendor for immediate consumption, are taxable at the higher State sales tax rate of 6.25% plus applicable local taxes. Soft drinks are always taxed at the higher rate. Soft drinks include any complete, finished, ready-to-use, non-alcoholic drink, whether carbonated or not, including but not limited to soda water, cola, fruit juice, vegetable juice, carbonated water, and all preparations commonly known as soft drinks of whatever kind or description that are contained in any closed or sealed bottle, can, carton, or container regardless of size. Soft drinks do not include coffee, tea, non-carbonated water, various milk products, drinks containing 50% or more natural fruit or vegetable juice, powdered drink mixes or concentrated and reconstituted fruit juices. See Section 130.310 (b)(5).

I hope this information is helpful. The Department of Revenue maintains a website, which can be accessed at www.revenue.state.il.us. If you have further questions related to the Illinois sales tax laws, please contact the Department's Taxpayer Information Division at (217) 782-3336.

If you are not under audit and you wish to obtain a binding Private Letter Ruling regarding your factual situation, please submit all of the information set out in items 1 through 8 of Section 1200.110(b).

Very truly yours,

Melanie A. Jarvis
Associate Counsel
